

Pratt AIA Courses not approved for Certification

Pratt is registered as a Premier provider with the American Institute of Architects, Continuing Education System (AIA/CES). We are committed to offering quality education in accordance with the AIA/CES criteria (provider #F163).

PLEASE NOTE: The titles of courses listed below are not acceptable for New York State continuing education credit since they are not in an approved subject area.

Also note that these courses may be accepted in other states and that we recommend for you to check with those states if you seek assurance. Continuing Education is an important part of maintaining ones licensure and continuing to remain up to date with ones professional practice. There are courses that are listed below that the State of New York has deemed as not appropriate continuing education subject matter, however these courses are practical to benefit your practice.
