1. Personal Interest: (Please describe your interest in teaching a Pratt Integrative Course and the connection to your creative/scholarly work. Please attach a recent CV.)

2. PIC Course: (Please describe the course you are proposing and attach a draft syllabus.)

Course Title:

Specific Course Description (no more than 300 words):

PIC Courses General Description:

The Pratt Integrative Courses are designed as interdisciplinary explorations of a wide range of possible content, putting into practice multiple ways of thinking and ways of making. Students will acquire and integrate skills and competencies from both studio and general education classes, recombining them in novel and unexpected ways that test, challenge, and expand their creative/critical capacities. The PICs constitute an integrative opportunity in students' overall Pratt learning experience, an engagement in a cross-disciplinary and collaborative environment that can also nourish their future work in their majors and the capstone projects related to their disciplines.
