

PIZZA + MORE SKILLS FOR THE COLLABORATIVE WORKPLACE

We welcome back Drs. Tonya Leslie and Jessica Hochman of We Need 2 Talk for a workshop that will guide you through some strategies for addressing common challenges that arise in the collaborative workplace. In particular, we will share the RIR protocol (Recognize, Interrupt, Repair), a form of compassionate dialogue that helps collaborators stay in relationship through conflict. Using case studies from the graduate classroom and the workplace, we will practice using the protocol. Come prepared for conversation! If you attended their last workshop, you can come again as new cases will be explored.
