

Prompt

Views from Pratt

Look at your world in a new way with this viewfinder project inspired by artist Corita Kent's famous exercise. The shape nods to windows of the Brooklyn campus library, which topped the list of favorite places to work at Pratt from our Fall 2025 Prompt.

1. Remove the bottom part of this page and use the guide to cut out your viewfinder.
2. Flip the page and use your viewfinder to frame a moment from your world—on a walk, at work, or in a familiar place you'd like to see differently.
3. Use your new view to start a poem, drawing, or other creative action.
4. Share your creations with us. Use the QR code or email prattfolio@pratt.edu.
